2020 NADSP E-Badge Academy Pricing

The annual subscription cost for being a part of The NADSP E-Badge Academy is based on a simple tiered pricing system. There are discounted NADSP Member rates and standard Non-Member rates. Regardless of membership status, the costs also decrease as you purchase more user licenses.

This pricing can vary anywhere between \$50 and \$80 per user, falling under the following four ranges for numbers of users:

Price Per User

	>500 Users	201-500 Users	101-200 Users	<101 Users
NADSP Member	\$50	\$55	\$60	\$65
Non-Member	\$65	\$70	\$75	\$80

An agency may choose to purchase licenses for only a portion of their workforce, but must purchase a minimum of 100 user licenses. For example, an agency with 500 Direct Support Professionals can purchase licenses for only a portion of their workforce, but must purchase at minimum 100 licenses at the '<101 users' price level.

An exception is made for organizations that employ less than 100 Direct Support Professionals. While they are able to purchase less than 100 user licenses, they must purchase licenses for the total number Direct Support Professionals employed. For example, if an agency employs 50 Direct Support Professionals, they are required to purchase 50 user licenses at the '<101 users' price level.
