2023 NADSP E-Badge Academy Pricing

The annual subscription cost for being a part of The NADSP E-Badge Academy is based on a simple tiered pricing system. There are discounted NADSP Member rates and standard Non-Member rates. Regardless of membership status, the costs also decrease as you purchase more user licenses.

This pricing can vary anywhere between \$80 and \$100 per user, falling under the following four ranges for numbers of users:

Price Per User			
	>500 Users	101-500 Users	<101 Users
NADSP Member	\$70	\$75	\$80
Non-Member	\$80	\$90	\$100

We are happy to work with an organization to customize a solution for you. An agency wishing to pilot the E-Badge Academy may choose to purchase licenses for only a portion of their workforce. For example, an agency with 200 direct support professionals can purchase licenses for only some of their employees but must purchase at minimum 25 licenses at the '<101 users' price level.

Currently, we cannot license individual user seats. The E-Badge Academy Application is intended to be completed by agency administrators who manage numerous internal employees and are interested in providing access to direct support professional and frontline supervisor certification.

For questions on the E-Badge Academy, contact Desiree Loucks Baer at dloucksbaer@nadsp.org.
